

PARTNER DAY

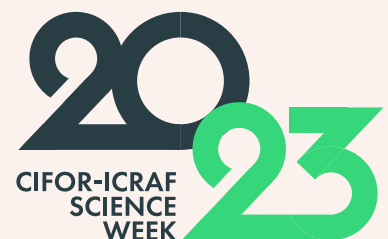

10 May 2023,
CIFOR Headquarters, Bogor, Indonesia
Hybrid

Science Week 2023, Equity in action, is a week-long global CIFOR-ICRAF forum to showcase and reflect on how our work addresses the global challenge of inequality – a core area of CIFOR-ICRAF’s strategy for 2020-2030. As part of this event, CIFOR-ICRAF is organizing a Partner Day to celebrate how our work with partners contributes to just transitions and equitable transformations in Indonesia.

The Partner Day will:

- ✔ Showcase and reflect on the results and achievements of collaborations between CIFOR-ICRAF and its partners.
- ⋮ Discuss ways to enhance existing partnerships.
- 🔍 Identify new areas for future collaboration.

Participants are requested to fill in the registration form available in the invitation letter by 2 May 2023.

Time	Activity	PIC
08:30 - 08:40	Opening remarks	Robert Nasi Chief Operating Officer (COO), CIFOR-ICRAF Director General, CIFOR
08:40 – 09:30	Keynote speech	Arif Satria Rector of IPB University Ary Sudijanto Director General of the Agency for Standardization of Environment and Forestry Instruments
09:30 - 10:30	CIFOR-ICRAF partnership This interactive session will discuss how to enhance the collaboration between CIFOR-ICRAF and the partners and expand the network, and in what ways CIFOR-ICRAF can establish new partnerships. Participants may express their comments orally or using Slido.	Arthur van Witzenburg Senior Resource Mobilization Team Leader CIFOR-ICRAF
10:30 – 10:45	Break	
10:45 – 12:00	Promoting Green Growth for Improved Food Security and Livelihoods This session will be a talk show that explores the different green growth strategies and initiatives being implemented with the support of research conducted in partnership with CIFOR-ICRAF. During the show, the partners will share their experiences in implementing approaches towards sustainable land use and management, improving food security and livelihoods.	Anang Nugroho Director for Agriculture and Food Production National Development Planning Agency of Indonesia (Bappenas) Nia Novita Wirawan Lecturer at Nutrition Department Brawijaya University Regina Ariyanti* Head of Regional Planning Agency South Sumatera Province Putra Agung Director Rainforest Alliance Indonesia Gita Syahrani Director Indonesia's Sustainable Districts Association (LTKL) Ali Suhardiman Lecturer Mulawarman University Moderator: Andree Ekadinata CIFOR-ICRAF
12:00 – 12:45	Lunch	
12.45- 13.00	Opening of Science week Fergus Sinclair, the Chief Scientist of CIFOR-ICRAF, will open the Science Week with introductory remarks to the partners attending Partner's Day. He will also provide a brief explanation of the morning sessions to his CIFOR-ICRAF colleagues attending Science Week in Nairobi and other parts of the world. Additionally, he will provide insights into the significance of CIFOR-ICRAF's research and development works in forests and agroforestry, globally and in Indonesia, including the two subsequent sessions on Trade and EU Deforestation-free regulation and Landscape restoration.	Fergus Sinclair

Time	Activity	PIC
13:00 – 14:15	<p>Landscapes restoration</p> <p>Wetlands ecosystems, including Peatlands and mangroves are among carbon-rich ecosystems that experience tremendous pressures of conversions for other uses. Restoring these ecosystems is crucial to abate climate change and sea level rise. The mitigation and adaptation measure should be seen as an opportunity to enhance livelihoods of local community.</p>	<p>Rudhi Pribadi Lecturer Diponegoro University</p> <p>Taryono Darusman General Field Manager Rimba Makmur Utama</p> <p>Dessy Adriani Lecturer Sriwijaya University</p> <p>Ni Luh Watiniasih Lecturer Udayana University</p> <p>Moderator: Himlal Baral CIFOR-ICRAF</p>
14:15 – 14:30	Break	
14:30 – 15:45	<p>Trade and the EU Deforestation-free Regulation</p> <p>The EU has issued a new law to prevent companies from placing commodities linked with deforestation and forest degradation, onto the EU market, or exporting them from the EU. The session will focus on navigating the EU's new regulation, status quo, implication and the way forwards for global trade, environment and smallholder by bringing insights from the consumer and producer countries, CSOs (Civil Society Organizations) and research organizations. The session will highlight palm oil and timber as case studies.</p>	<p>Moch. Edy Yusuf Assistant Deputy of Plantation Agribusiness Development Coordinating Ministry of Economic Affairs, Indonesia</p> <p>Henriette Faergemann First Counsellor for Environment, Climate Action and Digital cooperation European Union Delegation to Indonesia</p> <p>Herry Purnomo CIFOR-ICRAF, IPB University</p> <p>Diah Suradiredja Senior Advisor KEHATI</p> <p>Ahmad Maryudi Lecturer University of Gadjah Mada</p> <p>Moderator: Ahmad Dermawan CIFOR-ICRAF</p>
15:45 – 16:00	Slido polling and closing	

* To be confirmed

About CIFOR-ICRAF

CIFOR-ICRAF harnesses the power of trees, forests and agroforestry landscapes to address the most pressing global challenges of our time – biodiversity loss, climate change, food security, livelihoods and inequity. Learn more at [cifor-icraf.org](https://www.cifor-icraf.org).

In December 2021, the Center for International Forestry Research (CIFOR) and World Agroforestry (ICRAF) completed a three-year programmatic and operational merger process. While maintaining separate legal entities, CIFOR-ICRAF now operates under a single governing Board and single leadership team, with a joint regional structure and five joint research themes, guided by the CIFOR-ICRAF Strategy 2020–2030. The functional merger brings together more than 70 years of combined expertise, over 700 staff working in 60 countries across the Global South, offices in 25 countries, 14 host country agreements, nearly 200 active partnerships, and intellectual assets published in some 25,000 research products. CIFOR and ICRAF are CGIAR Research Centers.
