

The 3rd National Workshop

Strengthening Sustainable Palm Oil Achievements in Indonesia to Improve Community Well-being and Address the Climate Crisis

 11 January 2024

 Jakarta

Introduction

Through research entitled Scaling Jurisdictional Approaches in the Indonesian Palm Oil Sector, CIFOR-ICRAF and partners aim to increase the readiness of four palm oil producing regions to implement jurisdictional programmes (JPs) through a participatory, multistakeholder and gender-inclusive approach, and synthesize lessons learned from regency-level studies to strengthen sustainable palm oil initiatives at the national level.

Research activities began by implementing co-design workshops in four regencies: Sintang, Pelalawan, Pulang Pisau and Kutai Kartanegara. At the national level, CIFOR-ICRAF and partners organized the

first and second National Workshops and Global Landscape Forum Dialogues in Bogor on 12 October and 23 November 2023, respectively. The aims of the first workshop were to disseminate the results of CIFOR-ICRAF and partners' regency-level studies, and identify important issues, solutions, and actors for jurisdictional approach initiatives for the Indonesian palm oil sector. The second workshop produced a draft national-level Theory of Change (ToC) and the SIPOS (Simulation of Indonesian Palm Oil Sustainability) model. Other output included supply chain analyses of the four regencies where research was carried out to be used as input for processes at the national level. The 3rd National Workshop, which has the theme "Strengthening Sustainable Palm Oil Achievements in Indonesia to Improve Community Well-being and

Organized by:

Jikalahari
Jaringan Kerja Penyelamat Hutan Riau

Address the Climate Crisis, will be a forum for national actors to disseminate and discuss relevant issues, and produce recommendations that can contribute to strengthening relationships between JPs and international market demand, advertising-based certification initiatives and national and regional policies.

Objectives

The objectives of the workshop are to:

1. disseminate progress and research results of CIFOR-ICRAF and partners' on jurisdictional approaches to sustainable palm oil in Indonesia;
2. disseminate and share experiences, progress and lessons learned from jurisdictional approach initiatives in Indonesia, especially at the national level;

3. disseminate and secure input for a draft TTM – ToC (Theory of Change), ToA (Theory of Action) and MEL (Monitoring and Evaluation Framework) – which includes issues, solutions, actors, actions and monitoring indicators needed to strengthen and contribute to sustainable palm oil initiatives at the national level.

Date, time and venue

The workshop will be organized in hybrid form, with participants from Jabodetabek attending in-person, and participants from regencies attending online, at the following date, time and venue:

- Day/Date : Thursday, 11 January 2024
- Time : 08:30–15:30 Western Indonesian Time (WIB)
- Venue : Singosari Room, Borobudur Hotel, Jakarta

Agenda

Morning sessions will be broadcast to the public using Zoom, the CIFOR-ICRAF website and YouTube.

MC and moderator: **Naila Husna**

Time (WIB)	Agenda	Resource persons
08.30-09.00	Registration	Organizing committee
09.00-09.30	Opening and welcoming remarks	<ol style="list-style-type: none"> Dr. Sonya Dewi, Director CIFOR-ICRAF Asia Dr Natalina Asi, Vice Rector of Palangka Raya University Prof. Dr. Herry Purnomo, Director CIFOR-ICRAF Indonesia
09.30-10.00	Keynote speeches	Deputy II for the Deputy Chief of Staff for Human Development at the Executive Office of the President of the Republic of Indonesia
	Topic 1: Indonesian palm oil: Towards green trade initiatives like the EUDR	
	Topic 2: Opportunities, challenges and policy directions for the National Action Plan for Sustainable Palm Oil in Indonesia	Deputy Minister for Food and Agribusiness Affairs, Coordinating Ministry of Economic Affairs
	Topic 3: Opportunity and Challenges for Sustainable Palm Oil Supply Chain in Indonesia	Chairman of GAPKI (Indonesian Palm Oil Association) *to be confirmed
10:00- 11:00	Talk show Commitments to and strategies for sustainable palm oil in Sintang, Pulang Pisau, Pelalawan and Kutai Kartanegara regencies	<p>Speakers:</p> <ol style="list-style-type: none"> Regent of Sintang Regent of Pulang Pisau Regent of Pelalawan Regent of Kutai Kartanegara <p>Responders:</p> <ol style="list-style-type: none"> Ade M. Iswadi, Sintang Civil Society Forum Dr. Hendrik Segah, University of Palangkaraya Okto Yugo, Jikalahari
11:00 – 11:15	Research output handover ceremony: Contributory documents for Sustainable Palm Oil Regional Action Plans in Sintang, Pulang Pisau, Pelalawan and Kutai Kartanegara regencies	
11:15 – 12:00	Presentation session:	
	<ol style="list-style-type: none"> Supply chain and traceability analyses in four regencies Simulating sustainable palm oil scenarios using the SIPOS (Simulation of Indonesian Palm Oil Sustainability) model 	<ol style="list-style-type: none"> Dr. Ani Adiwinata Nawir, CIFOR-ICRAF Beni Okarda, CIFOR-ICRAF and Dr. Lila Juniyanti, CIFOR-ICRAF & BRIN
	Discussion and Q&A	
12:00 – 12:30	Interactive Session using SIPOS	Beni Okarda , CIFOR-ICRAF and Dr. Lila Juniyanti , CIFOR-ICRAF & BRIN
12:30-13:30	Lunch break	
13:30-15:00	Presentation and discussion:	
	Co-designing a TTM: Recommendations for the National Action Plan for Sustainable Palm Oil	Dyah Puspitaloka and Monica Azzahra , CIFOR-ICRAF
15:00-15:30	Conclusion and closing	Prof. Dr. Herry Purnomo , CIFOR-ICRAF
